Subject index

Abortion
first trimester, endometrium, regeneration, oestrogen–progestin therapy 1143
first trimester, RU 486, cervical ripening, electron microscopy 1136
genetic disorders, prenatal diagnosis 1983
IVF, miscarriage rates, polycystic ovaries, pituitary desensitization 959
IVF–ET, miscarriage rates, number of embryos, perinatal mortality 1324
medical abortion, RU 486, prostaglandins 1502
miscarriage, age, uterine/ovarian factors 1512
misoprostol, gemeprost, RU 486, abortifacient effects 1744
recurrent early miscarriage, polycystic ovarian syndrome, LH, hypersecretion 829
recurrent miscarriage, maternal HLA antigens 1843
recurrent spontaneous, sporadic spontaneous, ultrasonography, fetal cardiac activity 627
recurrent spontaneous abortion, aetiology, fetal growth retardation, glucose tolerance 764
recurrent spontaneous abortion, HLA antigens, leukocyte immunotherapy, pregnancy rates 1645
RU 486, decidua, progesterone receptor, oestrogen receptor 1288
selective embryo reduction, ovarian hyperstimulation syndrome, heterotopic pregnancy 1329
spontaneous abortion, heterochromatic polymorphisms 755
spontaneous abortion, intra-uterine adhesions, first trimester, diagnostic hysteroscopy 442

Acrosin activity
spermatozoa, sperm characteristics, fertilization, IVF 253

Acrosome reaction
acrosome status, flow cytometry, human spermatozoa, salmon testis DNA 1879
capacitation, cholesterol, mannose lectins 2001, 2141, 2155
capacitation inhibitor, fetal cord serum 575
clomiphene citrate, anti-oestrogenic properties, oestradiol 922
detection by probes, *Arachis hypogaea* lectin, *Pisum sativum* lectin, monoclonal antibody CRB9 1663
follicular fluid, progesterone, oocyte maturity, fertilization 1448
GB24 antibody, *Arachis hypogaea* lectin, semen quality, IVF 1685
IVF prediction, triple-stain 2128
mechanism, control, calcium 2006
osmo-sensitivity, ionophore A23187, dbcAMP, albumin 1235
pentoxifylline, IVF, calcium ionophore, ARIC test 2102
platelet activating factor, calcium 1443
spermatozoa, abnormal morphology, follicular fluid 412
spermatozoa, fertilizing ability, in-vitro test, iodine- labelled lectins 258
suppression, D-mannose, D-fructose 1729

Activin
follicular fluid, local ovarian regulation, follistatin 1392

Adenomyoma
uterus, conservative surgery, reproductive prognosis 1708

Adrenocorticotrophic hormone
nafarelin, endometriosis, pre-menstrual syndrome, pituitary desensitization 1593

Aequorin
oocytes, calcium oscillations, fertilization 2174

Age
pregnancy, miscarriage, uterine/ovarian factors 1512

Albumin
acrosome reaction, osmo-sensitivity, ionophore A23187, dbcAMP 1235
intravenous administration, ovarian hyperstimulation syndrome, high-risk subjects 1015
production, liver fetal cells, tri-iodothyronine, mouse 1576

Androgens
cigarette smoking, gonadotrophins, oestradiol, progesterone 1187
polycystic ovarian disease, LH, insulin, C-peptide 1179

Anejaculation
spinal injury, sperm aspiration, vas deferens, IVF 1689

Anembryonic pregnancy
glucose phosphate isomerase, gene defect, mouse 1316

Aneuploidy
embryos, preimplantation diagnosis, mosaicism, FISH 2185

Antiphospholipid antibodies
pregnancy loss, lupus anticoagulant, aspirin, low-dose treatment 2234

Antisperm antibodies
cervical mucus, mixed antiglobulin reaction, sperm–mucus interaction 1025
ELISA, serum samples, infertility, clinical investigation 1405
Fallopian tube, sperm perfusion, pregnancy rates 1414
male factor infertility, spermogram, diagnosis 1152
mixed antiglobulin reaction, tray agglutination test, IVF 84
predictive value, frequency, infertile couples 592
subfertile men, IVF–ET, pregnancy rates 1079

Aspirin
low-dose treatment, primary antiphospholipid syndrome, pregnancy loss, lupus anticoagulant 2234

Assisted fertilization
IVF, subzonal insemination, intracytoplasmic injection, outcomes 1785
pentoxifylline, uses, mechanism of action, cyclic AMP 1787
sperm defects, diagnosis, IVF 1779

Assisted reproductive techniques
embryo quality, endometrial development, implantation, ovarian stimulation 1938
IVF, alternative strategies, cost-effectiveness 1788
IVF, GIFT, tubal embryo transfer, uterine embryo transfer 168

Autonomic nervous system
cervical mucus, regulation, prostaglandin H synthase inhibitors, fertility 1168

Azoospermia
maturation arrest, clonidine test, treatment, growth hormone 919
vasoepididymostomy, IVF–ET, pregnancy rates 1692

Birth defects
chemotherapy, spermatozoa, mutations 8

Birth weight
placental proteins, first trimester, preterm labour 1942

Blastocysts
sex differentiation, sex-related growth, X/Y chromosomes, longevity 1550
Blastomeres
embryo biopsy, blastocyst formation 1481
Blood
extrinsic coagulation system, ovarian stimulation, tumour necrosis factor 1349
Body composition
bioelectrical impedance, urinary FSH, plasma concentrations 1001
Breast-feeding
GnRH response, pulsatile LH/FSH, prolactin, dopamine 532
British Andrology Society
semen donor screening guidelines 1521
Buserelin
GnRH agonist, short/long protocol, ovarian stimulation, follicular volume 807
pituitary desensitization, IVF, miscarriage rates 959

Calcium
acrosome reaction, platelet activating factor 1443
calcium oscillations, oocytes, spermatozoa, fertilization 2174
oocyte maturation, egg activation, meiosis, IVF 1274
Calmodulin
human preimplantation embryos, cell division 272
Capacitation inhibitor
fetal cord serum, acrosome reaction, follicular fluid 575
Centrifugation
spermatozoa, sublethal damage, motility loss, dextran swim-up 1087
Cervical contractility
RU 486, pregnancy, adrenergic receptors, antiprogestogen 119
Cervical leukocytosis
Papanicolau test, cervical smear, post-coital test, bacterial infections 244
Cervical mucus
antisperm antibodies, sperm–mucus interaction, mixed antiglobulin reaction 1025
biochemical composition, post-partum period, sperm migration 78
quality, sperm–cervical mucus interaction, anti-oestrogens, ovulatory women 437
regulation, autonomic nervous system, prostaglandin H synthase inhibitors, fertility 1168
Chemotherapy
cancer patients, post-spermatogonial cells, mutagenic sensitivity, sperm viability 982
spermatozoa, mutations, birth defects, cryopreservation 8
Chlamidia trachomatis
spermatozoa, ultrastructure, reticulate body, infertility 416
Cholesterol
capacitation, mannose lectins, acrosome reaction 2001, 2141, 2155
Cholic acid
spermicide, contraceptive vaginal sponge, anti-HIV activity, sexually transmitted diseases 866
Chorionic villi
early pregnancy, prostaglandin dehydrogenase, RU 486, decidua 705
Chorionic villus sampling
preimplantation diagnosis, women's preferences, questionnaire, genetic disease 2192
Chromosomes
abnormalities, radiotherapy, spermatozoa, Hodgkin's disease 903
aneuploidy, preimplantation diagnosis, FISH, IVF 2185
chromosomal aberrations, IVF 572
chromosome abnormalities, oocytes, immaturity, IVF 229
chromosome X, preimplantation diagnosis, polymerase chain reaction, primer extension preamplification 2206
embryos, sexing, C-banding, mouse 470
heterochromatic polymorphisms, miscarriage 755
human oocytes, R-banding, aneuploidy diagnosis 604
mixoploidy, polyploidy, FISH, preimplantation diagnosis 895
population X/Y ratios, sperm separation, sex selection, ethics 1541
pronuclear morphology/asynchrony, zygotes, early developmental arrest 744
sex chromosomes, multinucleated blastomeres, preimplantation diagnosis, FISH 1120
spermatozoa, chromosome analysis, sperm storage, structural abnormalities 581
trisomy, non-disjunction, oocytes, age 1047
X/Y chromosomes, blastocysts, sex differentiation, sex- related growth 1550
X/Y chromosomes, FISH, sperm separation, sex selection 1733
Y chromosome, oocytes, abnormal 1PN oocytes, in-situ hybridization 402
Cigarette smoking
androgens, gonadotrophins, oestradiol, progesterone 1187
Clomiphene citrate
clomiphene resistance, anovulation, polycystic ovarian syndrome, treatment 1367
dosage, pregnancy loss, IVF, GIFT 981
follicular stimulation, ovarian cancer risk, HMG 990
HMG, ovulation induction, multiple birth rate, fecundity 56
spermatozoa, acrosome reaction, anti-oestrogenic properties, oestradiol 922
Clonidine test
azoospermia, maturation arrest, treatment, growth hormone 919
Co-culture
blastocyst hatching, partial zona dissection, mouse 599
bovine oviductual cells, embryonic development, implantation 97
evaluation, mode of action, embryo development, IVF 1155
granulosa cells, embryos, in-vitro development 2133
oocytes, granulosa cells, fertilization rate, male factor infertility 1455
preimplantation embryos, Vero cells, development, hatching 1525
Conception
cumulative conception rate, donor insemination, age, parity 60
Contraception
contraceptive development, public/private finance, population growth 981
contraceptive vaginal sponge, cholic acid, spermicide, anti-HIV activity 866
endometriosis, oestrogen–progestogen, intra-uterine devices, pelvic pain 547
family planning, religious attitudes, traditional methods, population growth 969
levonorgestrel, endometrium, microvascular density, bleeding pattern 1396

low-dose contraceptives, endometrial damage, ovarian stimulation, hormone replacement 543
population growth, environmental impact 1346
post-coital contraception, levonorgestrel, Yuzpe regimen, side-effects 389
RU 486, antiprogestin, endometrial function, uterine contractility 870

Corpus luteum
corpus luteum–embryo interactions, trophoblast, HCG, heterotopic pregnancy 1496
ectopic pregnancy, progesterone, oestradiol, trophoblast 1491
GnRH, progesterone secretion, prostaglandin, indomethacin 35
leukocytes, cytokines, ovulation 1762
luteal function, early embryonic arrest, ectopic pregnancy 645
luteal phase support, HCG, GnRH agonist, ultrashort protocol 1372
luteolysis, tenascin, immunohistochemistry 2015
luteolysis, tissue type plasminogen activator, rhesus monkey 1640
tubal pregnancy, prostaglandin $F_{2\alpha}$ treatment, endometrium, trophoblast 1928

Corticosteroids
methylprednisone, IVF–ET, immunosuppression, pregnancy rates 393

Cortisol
nafarelin, endometriosis, pre-menstrual syndrome, pituitary desensitization 1593

Counselling
IVF, psychological evaluation, stress 1332
male infertility, donor insemination 880

Cryopreservation
embryos, GIFT, cumulative pregnancy rate 559
embryos, hormone replacement cycles, natural cycles, ultrasonography 2068
embryos, IVF–ET, efficacy, efficiency 247
frozen–thawed human blastocyst, assisted hatching, zona rubbing, IVF 127
oocytes, 1,2-propanediol, cortical granules, meiotic spindle, human/mouse 1101
oocytes, reproducible techniques 1524
primordial follicles, transplantation, mouse 1163
1,2-propanediol, embryo biopsy, blastocyst formation 1481
spermatozoa, freezing–thawing methods, motility, morphology 1678
spermatozoa, hypo-osmotic swelling, motility 717
ultrarapid freezing, embryos, mouse 1115
ultrarapid freezing, mitochondrial distribution, oocytes, zygotes, rhodamine 123 2115
zona hardening, fetal bovine serum, fetuin, mouse 1898

Culture media
embryos, cleavage, metabolism, mouse 288
embryos, mouse 1110
follicular fluid, antibacterial activity, IVF 508

Cumulus oophorus
spermatozoa, flagellar movement, relative force, laser optical trap 1083

Cyclic AMP
oocyte–cumulus complex, meiosis 737
pentoxifylline, mechanism of action, assisted fertilization 1787

Cyclosporine
tubo-ovarian transplant, ovarian function, cyclosporine 929

Cystic fibrosis
CF gene, preimplantation diagnosis, polymerase chain reaction, primer extension preamplification 2206
cystic fibrosis mutations, vas deferens, epididymal sperm, fertilization rate 1259
infertility, vas deferens, congenital absence, MESA/IVF 215
semen donors, polymerase chain reaction, retroactive testing 1435

Cytokines
follicular development, ovulation, corpus luteum, leukocytes 1762

Cytoskeleton
frozen–thawed oocytes, zona sensitivity, dimethylsulphoxide, mouse 612

Decidua
cell adhesion molecules, integrins, lymphocytes, first trimester 1203
early pregnancy, prostaglandin dehydrogenase, RU 486, chorionic villi 705
immunolocalization, oestrogen receptor, progesterone receptor, prolactin production 1129
natural killer cells, perforin, granzyme A, TIA-1 2061
RU 486, progesterone receptor, oestrogen receptor, abortion 1288
trophoblast, materno–fetal interaction, first trimester 965

Deoxyadenosine
sperm motility, fertilization, embryo development, mouse/human 945

DIFT
intrafollicular gamete transfer, ultrasound-guided follicular puncture 771

Digital image analysis
spermatozoa, pentoxifylline, hyperactivation, male factor infertility 727

Dinucleotide repeat sequence
preimplantation diagnosis, polymerase chain reaction, blastocysts, trophectoderm 2197

Donor insemination
age, cumulative conception rate, parity 60
donor anonymity, role of clinicians, legislation 1518
GIFT, efficacy, sperm characteristics 2098
male infertility, counselling 880
offspring, psycho-social development 788
semen donor screeningguidelines 1521

Doppler
colour Doppler mapping system, proximal tubal occlusion, transcervical wire tuboplasty 1715
colour ultrasonography, multifetal pregnancies, selective termination 642

Dual analyte assay
ovulation marker, oestrone–pregnanediol, LH peak 208

Ejaculation
ejaculation failure, paraplegia, vas deferens, sperm aspiration, IVF 89
ejaculatory frequency, semen characteristics, spermatozoa, infertility, intra-uterine insemination 71
multiple ejaculations, abstinence, sperm numbers, accessory gland secretions 1251

ELISA
antisperm antibodies, serum samples, infertility, clinical investigation 1405
Embryos
aneuploidy, mosaicism, preimplantation diagnosis, FISH 2185
blastocyst hatching, partial zona dissection, co-culture, mouse 599
blastocysts, doubling time, HCG secretion, time- dependence 1463
blastocysts, in-vitro culture, HCG secretion 932
blastocysts, IVF, developmental potential, HCG secretion 2119
blastocysts, maturation, epidermal growth factor, oocytes 691
blastocysts, sex differentiation, sex-related growth, X/Y chromosomes 1550
blastocysts, trophectoderm, preimplantation diagnosis, polymerase chain reaction 2197
blastomere degeneration, microsurgical correction, viability, hatching process, mouse 1723
co-culture, bovine oviductual cells, embryonic development, implantation 97
corpus luteum−embryo interactions, trophoblast, HCG, heterotopic pregnancy 1496
cryopreservation, GIFT, cumulative pregnancy rate 559
cryopreservation, hormone replacement cycles, natural cycles, ultrasonography 2068
cryopreservation, IVF−ET, cohort study, efficiency 247
cryopreservation, mouse 1115
culture media, cleavage, metabolism, mouse 288
culture media, mouse 1110
diseases, prenatal diagnosis, treatments, placenta 1966
early embryonic arrest, luteal function, corpus luteum, ectopic pregnancy 645
embryo biopsy, blastocyst formation, cryopreservation, 1,2-propanediol 1481
embryo biopsy, preimplantation diagnosis, sex determination, mouse 621
embryo culture, morphological appearance, infertility, IVF 266
embryo development, co-culture, evaluation, mode of action 1155
embryo development, deoxyadenosine, pentoxifylline, mouse/human 945
embryo expulsion, first trimester, RU 486, non-developing pregnancy 492
embryo quality, endometrial development, implantation, ovarian stimulation 1938
embryo transfer, embryo growth, domestic animals, human medicine 147
embryo transfer, IVF−ET, glyceryl trinitrate, pregnancy rates 1426
fetal growth retardation, recurrent spontaneous abortion, aetiology, glucose tolerance 764
first trimester, embryonic cavities, protein/steroid levels, protein pathways 782
human preimplantation embryos, cell division, calmodulin 272
implantation, *in vitro*, pentoxifylline, mouse 1948
implantation, integrin, laminin, fibronectin 475
implantation rate, IVF, multiple gestational sacs, 'take-home baby' rate 710
in-vitro development, co-culture, granulosa cells 2133
morulae, blastocyts, chorionic gonadotrophin secretion, rhesus monkey 279
multinucleated blastomeres, preimplantation diagnosis, FISH, sex chromosomes 1120
peri-implantation period, oestradiol/progesterone ratio, endometrial development 374
preimplantation diagnosis, aneuploidy, FISH 296
preimplantation diagnosis, FISH, mixoploidy, polyploidy 895
preimplantation diagnosis, lipid storage disease, human, mouse 302
preimplantation diagnosis, sexing, chromosomes, mouse 470
preimplantation embryos, co-culture, Vero cells 1525
preimplantation embryos, development, pentoxifylline, mouse 1475
preimplantation embryos, growth, differentiation, epidermal growth factor, mouse 1459
preimplantation embryos, polypeptide profiles 1901
single-cell embryo biopsy, preimplantation diagnosis, safety, mouse 1906
steroidogenesis, human early embryos *in vitro*, progesterone, HCG 277
TNFα, embryonic resistance *in vitro*, immunological mechanism, human/mouse 1032
trophoblast, decidua, materno−fetal interaction, first trimester 965
trophoblast, hormone production, ectopic pregnancy 1491
trophoblast, progesterone receptor, steroid concentrations, RU 486 953
trophoblast, tubal pregnancy, prostaglandin $F_{2\alpha}$ treatment 1928
ultrasound, crown−rump length, chorionic sac diameter, HCG 331
zygote development, ouabain, temporal effects, mouse 1469
zygotes, early developmental arrest, pronuclear morphology/asynchrony 744
Endometriosis
anti-endothelial antibodies, anti-endometrial antibodies, infertility 310
classification, AFS scoring system 1792
contraception, oestrogen−progestogen, intra-uterine devices, pelvic pain 547
endometrioma aspiration, ultrasound-guided oocyte retrieval, ovarian abscess 1282
laser treatment techniques, laparoscopy 133
oestrogen receptor, progesterone receptor, cycle phase, patients' age 2211
oestrogen receptors, progesterone receptors 1915
pelvic adhesions, subfertility, patient history, relative risk 53
pelvic endometriosis, scanning electron microscopy, immunohistochemistry, metaplasia 2218
pituitary desensitization, nafarelin, adrenocorticotrophic hormone, cortisol 1593
tubal infertility, radionuclide migration, ^{99m}Tc 1910
Endometrium
biochemical pregnancy, endometrial thickness, ovulation induction 327
bleeding problems, levonorgestrel, steroid receptors, immunohistochemistry 1632
chorionic villi, decidua, early pregnancy, prostaglandin dehydrogenase 705
cycle phases, immunoregulation, placental protein 14, interleukin-6 793
endometrial development, embryo quality, implantation, ovarian stimulation 1938

endometrial development, peri-implantation period, LH concentrations, follicular phase 1021
endometrial development, peri-implantation period, oestradiol/progesterone ratio 374
endometrial function, RU 486, antiprogestin, contraception 870
endometrial function, uterine washing 343
endometrial lining, ovarian stimulation, IVF−ET, ultrasonography 347
endometrial maturation, steroid receptors, ovarian failure, replacement therapy 1828
endometrial morphology, uterine flushing, placental protein 14, luteal phase 1923
endometrial thickness, echo pattern, IVF−ET, pregnancy prediction 1339
endometrial thickness, hyperechogenicity, pregnancy rates, IVF 1293
endometrial thickness, menopausal women, oocyte donation, pregnancy rates 1487
endometriosis, anti-endothelial antibodies, anti- endometrial antibodies, infertility 310
endometriosis, growth factor, polymerase chain reaction 11
endothelial cells, ICAM-1, PECAM, humans 175
endothelial cells, VCAM, ELAM-1, menstrual cycle 1173
epithelia, ion transport, Na/K, intra-uterine environment 1570
epithelial cell culture, polarized micro-environment, T cells, interferon-γ 182
glandular epithelium, morphometry, ultrastructure, unexplained infertility 667
immunocytes, immunoglobulins, J chain, secretory components 1420
low-dose contraceptives, endometrial damage, ovarian stimulation, hormone replacement 543
menstrual cycle, von Willebrand factor, immunohistochemistry 17
microvascular density, bleeding pattern, levonorgestrel 1396
mid-luteal phase, RU 486, tamoxifen, PP14 193
oestrogen receptor, progesterone receptor, cycle phase, patients' age 2211
oestrogen receptors, progesterone receptors, immunohistochemistry, endometriosis 1915
preimplantation, morphology, von Willebrand factor, rhesus monkey 1579
preparation, oestradiol valerate, oocyte donation, IVF surrogacy 1145
regeneration, oestrogen−progestin therapy, abortion, first trimester 1143
RU 486, endometrial maturation, low-dose antiprogestin 201
thickness/texture, ovulatory cycle, ultrasonography, transvaginal 799
tubal epithelial proteins, immunoglobulin, Fallopian tube, mucosa 1199
tubal pregnancy, prostaglandin $F_{2\alpha}$ treatment, corpus luteum, trophoblast 1928
ultrasonography, pregnancy prediction, IVF 1307
unexplained infertility, cell adhesion molecules, β1- integrin 1223

Endothelial cells
endometrium, VCAM, ELAM-1 1173
mitogenesis, follicular fluid, LH surge 1564

Endothelin-1
follicular fluid, follicular development, radioimmunoassay, IVF−ET patients 674

Epidermal growth factor
granulosa−luteal cells, progesterone production 1005
human parathyroid hormone, HCG, placenta, first trimester 107
oocytes, maturation, blastocysts 691
preimplantation embryos, growth, differentiation, mouse 1459

Epididimys
spermatozoa, epididymal maturation, motility disturbance, phospholipids 1070

Exercise
gonadotrophin secretion, LH, GnRH, amenorrhoea 1747

Fallopian tube
ectopic pregnancy, salpingectomy, salpingostomy, laparoscopy, surgical experience 2227
mucosa, placental protein 14, ovarian cycle, menopause 678
mucosa, tubal epithelial proteins, immunoglobulin, endometrium 1199
ovulation, spermatozoa, number, distribution, storage 2019
proximal tubal obstruction, transcervical tubal catheterization, selective salpingography 1711
proximal tubal occlusion, isthmic plug, falloposcopy, immunohistochemistry 1429
proximal tubal occlusion, transcervical balloon tuboplasty, multicentre trial 1264
sperm perfusion, antisperm antibodies, pregnancy rates 1414
sperm perfusion, non-invasive technique, Foley catheter 1848
sperm perfusion, unexplained infertility, efficacy 890
tubal anastomoses, fibrin glue, morphology, electron microscopy 2108
tubal infertility, radionuclide migration, ^{99m}Tc, endometriosis 1910
tubal pathology, ectopic pregnancy risk, assisted procreation, ovarian stimulation 1284
tubo-ovarian transplant, ovarian function, cyclosporine, rabbit 929

Falloposcopy
proximal tubal occlusion, isthmic plug, immunohistochemistry 1429
transcervical catheterization, tubal embryo transfer, tubal infertility, tubal pregnancy 445

Family planning
contraception, religious attitudes, traditional methods, population growth 969

Fertility
aetiology, predictability, psychological factors, questionnaire 1039
GnRH agonists, ovarian stimulation, oocytes, follicles 511
hormone replacement therapy, oocyte donation, agonadal women, post-amenorrhoeic women 498
population growth, contraception, religious attitudes, family planning 969
regulation, cervical mucus, autonomic nervous system, prostaglandin H synthase inhibitors 1168
seasonality, energy expenditure, weight loss, ovarian function 684
uterine malformations, pre-term deliveries, breech presentations, abortions 122

Fertility potential
semen analysis, spermatozoa, male infertility 65

Fertility table analysis
data collection, statistical methods, systematic errors, drop-out behaviour 886
Fertilization
acrosome reaction, follicular fluid, oocyte maturity, progesterone 1448
acrosome reaction, suppression, D-mannose, D-fructose 1729
assisted fertilization, pentoxifylline, mechanism of action 1787
assisted fertilization, sperm defects, diagnosis, IVF 1779
deoxyadenosine, pentoxifylline, embryo development, mouse/human 945
fertilization failure, aged human oocytes, intracytoplasmic single sperm injection 2180
fertilization failure, sperm–zona binding, ooplasmic anomalies 453
fertilization rate, subzonal insemination, sperm preparation, acrosome reaction 1866
fertilization rates, intracytoplasmic sperm injection 1061
IVF, hemizona assay, fertilization prediction 1240
micro-assisted fertilization, human gametes, viability, patient selection 1781
oocytes, calcium oscillations, spermatozoa, aequorin 2174
oocytes, polypeptide profiles 1901
platelet activating factor, acrosome reaction, calcium, sperm penetration assay 1443
sperm–oocyte interaction, spermatozoa, mammals 91
sperm characteristics, acrosin activity, IVF 253
spermatozoa, abnormal morphology, acrosome reaction, follicular fluid 412
spermatozoa, TEST–yolk buffer, glass wool filtration, hamster oocytes 425
Fetal antigen 1
structural analysis, tissue localization, human amniotic fluid 635
Fetal bovine serum
fetuin, cryopreservation, zona hardening, mouse 1898
α-Fetoprotein
embryonic cavities, first trimester, protein/steroid levels, protein pathways 782
production, liver fetal cells, tri-iodothyronine, mouse 1576
Fetuin
fetal bovine serum, cryopreservation, zona hardening, mouse 1898
Fibrin
fibrin glue, tubal anastomoses, morphology, electron microscopy 2108
Fibronectin
spermatogenic cells, human testis, β1 integrins 1873
trophoblast, implantation, integrin, laminin 475
Filariasis
Loa loa, follicular fluid, IVF, oocyte retrieval 2096
FISH
preimplantation diagnosis, aneuploidy 296
sperm separation, sex selection, comparison of methods 1740
sperm separation, sex selection 1733
Flow cytometry
acrosome status, human spermatozoa, salmon testis DNA 1879
Flutamide
hyperandrogenaemia, gonadotrophin secretion, pulsatility 1807
Follicles
follicular aspiration, ovarian hyperstimulation syndrome, IVF 1184
follicular development, ovulation, leukocytes, cytokines 1762
follicular development, polycystic ovarian disease, GnRH, LH secretion 2056
follicular fluid, acrosome reaction, progesterone, oocyte maturity 1448
follicular fluid, activin, follistatin, local ovarian regulation 1392
follicular fluid, antibacterial activity, IVF, culture media 508
follicular fluid, endothelial cells, mitogenesis, LH surge 1564
follicular fluid, endothelin-1, follicular development, IVF–ET patients 674
follicular fluid, HCG, GnRH agonist, ovulation induction 840
follicular fluid, *Loa loa*, filariasis, IVF 2096
follicular fluid, steroid concentrations, assisted reproductive techniques 1612
follicular growth, FSH:LH ratio, ovarian stimulation, Org 31338 1387
follicular maturation, RU 486, low-dose antiprogestin 201
follicular secretory factors, spermatozoa, fertilizing capacity 1670
follicular stimulation, ovarian cancer risk, 'fertility drug' use 990
follicular volume, oestradiol, ovarian stimulation, buserelin 807
growth, GnRH agonists, fertility 511
intrafollicular gamete transfer, ultrasound-guided follicular puncture 771
primordial follicles, cryopreservation, transplantation, mouse 1163
primordial follicles, ultrastructure, Hodgkin's disease, chemotherapy, medroxyprogesterone acetate 2080
theca cells, steroidogenesis, HCG, LH 519
Follistatin
follicular fluid, activin, local ovarian regulation 1392
Fraud conviction
sperm donation, inspection, legislation, IVF 499
D-Fructose
spermatozoa, acrosome reaction, zona penetration, suppression 1729
FSH
FSH:LH ratio, follicular growth, ovarian stimulation, Org 31338 1387
granulosa–lutein cells, steroidogenesis, insulin-like growth factor I, LH 1813
HMG, pharmacokinetics, ovulation induction, polycystic ovarian disease 813
ovarian function, pelvic adhesions, female infertility 1654
recombinant FSH, granulosa cells, steroidogenesis, urinary gonadotrophins 1823
recombinant human FSH, ovarian stimulation, pregnancy, birth 863
severe male infertility, pure FSH treatment, sperm defects, multicentre trial 500
steroidogenesis, granulosa cells, in-vitro culture, LH 1380
urinary FSH, plasma concentrations, body composition 1001
urinary purified/standard preparations, bioassay, immunoassay, pharmacokinetics 1604

Gamete donation
donor anonymity, role of clinicians, legislation 1518
Genetic disorders
prenatal diagnosis, prevention of birth, abortion 1983

Gestation
RU 486, medical abortion 1502
GIFT
cumulative pregnancy rate, embryos, cryopreservation 559
efficacy, sperm characteristics, donor insemination 2098
heterotopic pregnancy, contralateral tube 2231
hysteroscopic transfer 2093
outcome, number of oocytes, multiple pregnancies 1231
transvaginal GIFT, laparoscopic GIFT, tubal pathology 1703
ultrasonography, crown–rump length, transvaginal measurements 1933
β-Globin gene
preimplantation diagnosis, polymerase chain reaction, blastocysts, trophectoderm 2197
Glucose phosphate isomerase
gene defect, anembryonic pregnancy, mouse 1316
Glucose tolerance
recurrent spontaneous abortion, fetal growth retardation 764
Glutathione therapy
dyspermia, male infertility, motility analysis 1657
Glyceryl trinitrate
smooth muscle relaxant, IVF–ET, pregnancy rates 1426
GnRH
buserelin, hyperandrogenism, ovulation induction, oral contraceptive 2033
GnRH antagonist, LH secretion, follicular development, polycystic ovarian disease 2056
gonadotrophin secretion, exercise, amenorrhoea, LH 1747
GnRH agonist
buserelin, short/long protocol, ovarian stimulation, follicular volume 807
growth, maturation, GnRH agonists, fertility 511
HCG, ovulation induction, follicular fluid 840
inadvertent administration, luteal phase, improved fecundity, IVF 1148
leuprolide acetate, HCG, HMG, oocyte release 568
luteal phase, polycystic ovarian syndrome, ovulation induction, exogenous gonadotrophins 2027
ovarian hyperstimulation syndrome, menotrophins, assisted reproduction 2009
ovarian hyperstimulation syndrome, prevention, treatment 2245
ovulation induction, ovarian hyperstimulation syndrome, LH surge 1628
polycystic ovarian syndrome, FSH, low-dose treatment, ovulation induction 699
pre-ovulation, progesterone, serum concentration, pregnancy rate 1376
preimplantation, pregnancy, fetal outcome, luteolysis 496
ultrashort protocol, luteal phase support, HCG, progesterone 1372
uterine myomas, vaginal haemorrhage, oestrogen–progestin treatment 540
GnRH analogue
pre-operative treatment, uterine fibroids (leiomyomata), transabdominal hysterectomy, myomectomy 450
uterine myomata, Fallopian tube obstruction, GnRHa treatment 780
GnRH antagonist
GnRH, LH secretion, follicular development, polycystic ovarian disease 2056
Gonadotrophins
cigarette smoking, androgens, oestradiol, progesterone 1187
exogenous gonadotrophins, ovulation induction, luteal phase, polycystic ovarian syndrome 2027
follicular fluid, granulosa–luteal cells, steroidogenesis, progesterone 46
GnSAF, GnRH, LH secretion 822
gonadotrophin secretion, exercise, LH, GnRH 1747
gonadotrophin secretion, pulsatility, hyperandrogenaemia, flutamide 1807
ovary, steroidogenesis, insulin, metformin, rat 1194
urinary gonadotrophins, granulosa cells, steroidogenesis, recombinant FSH 1823
urinary-derived gonadotrophins, intramuscular injections, adverse local reactions 1835
Granulosa–luteal cells
luteal phase, IVF, HCG, progesterone 2047
progesterone production, epidermal growth factor 1005
steroidogenesis, insulin-like growth factor I, LH, FSH 1813
steroidogenesis, progesterone, follicular fluid, gonadotrophins 46
Granulosa cells
co-culture, oocytes, fertilization rate 1455
in-vitro culture, steroidogenesis, LH, FSH 1380
IVF, growth hormone, insulin-like growth factor-I, HMG 1588
steroidogenesis, actin, vinculin, rat 24
steroidogenesis, recombinant FSH, urinary gonadotrophins 1823
Granzyme A
natural killer cells, decidua, placentation 2061
Growth factor
endometrium, endometriosis, immunohistochemistry, polymerase chain reaction 11
Growth hormone
concentrations, follicular fluid, assisted reproductive techniques 1612
HMG, co-treatment, poor ovarian responders 834
infertility treatment, LH, FSH, testosterone 1869
insulin-like growth factor-I, granulosa cells, IVF, HMG 1588
poor ovarian responders, gonadotrophins, IGF-1, IGFBP-3 850
treatment, azoospermia, maturation arrest, clonidine test 919
Growth hormone-releasing factor
infertile women, HMG, ovulation induction, pregnancy 525

HCG
corpus luteum–embryo interactions, trophoblast 1496
ectopic pregnancy diagnosis, laparoscopy, transvaginal sonography, 1301 1307
HCG secretion, blastocysts, in-vitro culture 932
HCG secretion, IVF, blastocysts, developmental potential 2119
HCG secretion, time-dependence, blastocysts, doubling time 1463
IVF, granulosa–luteal cells, progesterone, luteal phase 2047
luteal phase support, HMG, GnRH agonist, progesterone 1372
oestradiol, IVF–ET, embryonic development, pregnancy rates 752
oocyte release, GnRHa, leuprolide acetate 568
oocyte retrieval failure, progesterone 1854
ovulation induction, follicular fluid, GnRH agonist 840
placental explants, early pregnancy, insulin 858
regulation, human parathyroid hormone, epidermal growth factor 107
Hemizona assay
IVF, fertilization prediction, male-factor infertility 1240

Histocompatibility
maternal HLA antigens, recurrent miscarriage 1843
HIV
cholic acid, anti-HIV activity, spermicide, contraceptive vaginal sponge 866
semen donors, polymerase chain reaction, retroactive testing 1435
HLA antigens
recurrent spontaneous abortion, leukocyte immunotherapy, pregnancy rates 1645
HMG
clomiphene citrate, ovulation induction, multiple birth rate, fecundity 56
follicular stimulation, ovarian cancer risk, clomiphene citrate 990
FSH, pharmacokinetics, ovulation induction, polycystic ovarian disease 813
ovarian stimulation, low response, IVF 369
polycystic ovarian syndrome, oestradiol 30
Hodgkin's disease
chemotherapy, primordial follicles, ultrastructure, medroxyprogesterone acetate 2080
radiotherapy, spermatozoa, chromosomes, abnormalities 903
Hormone replacement therapy
natural cycles, ultrasonography, embryos, cryopreservation 2068
oocyte donation, pregnancy rates, agonadal women, post-amenorrhoeic women 498
Human parathyroid hormone
HCG, placenta, regulation, epidermal growth factor 107
Human peritoneal fluid
lipidic component, sperm immobilization 428
Hyperandrogenaemia
gonadotrophin secretion, pulsatility, flutamide 1807
Hyperandrogenism
GnRH, buserelin, ovulation induction, oral contraceptive 2033
Hypothalamic ovarian failure
naltrexone, ovulation induction, GnRH release 350
Hypothalamo-pituitary axis
steroid feedback, LH suppression, melatonin, men 1819
Hysteroscopy
diagnostic hysteroscopy, intra-uterine adhesions, spontaneous abortion, first trimester 442
GIFT, hysteroscopic transfer 2093

ICAM-1
endometrium, endothelial cells, humans 175
Immunocytes
endometrium, immunoglobulins, J chain, secretory components 1420
Immunoglobulins
endometrium, immunocytes, J chain, secretory components 1420
Fallopian tube, mucosa, endometrium, tubal epithelial proteins 1199
ovarian failure, oestrogen replacement therapy, lymphocyte subsets 714
Immunohistochemistry
c-*kit* protein, adult tissues, fetal tissues 1955
decidua, cell adhesion molecules, integrins, lymphocytes 1203
isthmic plug, proximal tubal occlusion, falloposcopy 1429
oestrogen receptors, progesterone receptors, endometrium 1915
pelvic endometriosis, metaplasia, scanning electron microscopy 2218
steroid receptors, endometrium, levonorgestrel, bleeding problems 1632
tenascin, ovary, corpus luteum, luteolysis 2015
Immunosuppression
IVF–ET, methylprednisone, pregnancy rates 393
Impact factors
journal assessment, Current Contents, Science Citation Index, Editorial 983
Implantation
assisted reproductive techniques, embryo quality, endometrial development, ovarian stimulation 1938
embryos, oestradiol/progesterone ratio, peri-implantation period, endometrial development 374
implantation rates, assisted hatching, zona-drilling, mouse 939
implantation rates, intracytoplasmic sperm injection 1061
in vitro, pentoxifylline, mouse 1948
oocyte donation, age of recipient, menopause, deliveries 488
peri-implantation period, endometrial development, LH concentrations, follicular phase 1021
peri-implantation period, placental protein 14, uterine flushing, endometrial morphology 1923
prognosis, uterine artery perfusion, pulsatility index, colour Doppler sonography 1126
trophoblast, integrin, laminin, fibronectin 475
Infertility
aetiology, predictability, psychological factors, questionnaire 1039
anti-endometrial antibodies 310
chlamydial infection, spermatozoa, ultrastructure, reticulate body 416
clinical investigation, ELISA, serum samples, antisperm antibodies 1405
extreme male factor infertility, IVF–ET, subzonal insemination, pregnancy rates 908
female infertility, pelvic adhesions, FSH, ovarian function 1654
infertile couples, antisperm antibodies, predictive value, frequency 592
infertility treatment, growth hormone, LH, FSH, testosterone 1869
IVF, embryo culture, morphological appearance 266
laser treatment techniques, laparoscopy 133
male factor infertility, diagnosis, spermogram, antisperm antibodies 1152
male infertility, donor insemination, counselling 880
male infertility, dyspermia, glutathione therapy 1657
male infertility, frequency, detection methods, trends 1153
male infertility, semen analysis, spermatozoa 65
male infertility, sperm motility/ultrastructure, mitochondrial disease, energy substrates 1863
male infertility, treatment effectiveness, randomized trials, meta-analyses 1209
male-factor infertility, IVF, hemizona assay, fertilization prediction 1240
moderate male infertility, mini-Percoll, swim-up, subzonal insemination 587
psychosocial impact, psychosomatic symptoms, sexual dysfunction, structured questionnaire 396
semen, seminal plasma, oestradiol 74
severe male infertility, pure FSH treatment, multicentre trial, sperm defects 500

tubal infertility, falloposcopy, transcervical catheterization, tubal embryo transfer 445
tubal infertility, LHRH agonist, treatment protocol, IVF 238
tubal infertility, radionuclide migration, ^{99m}Tc, endometriosis 1910
unexplained infertility, definition, diagnosis, treatment 977
unexplained infertility, endometrium, cell adhesion molecules, β1-integrin 1223
unexplained infertility, endometrium, glandular epithelium 667
unexplained infertility, Fallopian tube, sperm perfusion, efficacy 890
unexplained infertility, intra-uterine insemination, ovulation induction, natural intercourse 563
vas deferens, congenital absence, MESA/IVF, cystic fibrosis 215

Indomethacin
progesterone secretion, corpus luteum, GnRH, prostaglandin 35

Insulin
insulin-like growth factor I, granulosa–lutein cells, LH, FSH, steroidogenesis 1813
insulin-like growth factor-I, granulosa cells, IVF, HMG 1588
ovary, steroidogenesis, gonadotrophins, metformin, rat 1194
placental explants, early pregnancy, HCG 858
polycystic ovarian disease, LH, androgens, C-peptide 1179

Insulin-like growth factor
IGF binding protein, IGF receptor gene, leiomyomata, uterus 1796

Integrins
β1 integrins, spermatogenic cells, fibronectin, human testis 1873
β1-integrin, endometrium, unexplained infertility 1223
cell adhesion molecules, lymphocytes, decidua 1203
trophoblast, implantation, laminin, fibronectin 475

Interferon-γ
endometrium, epithelial cell culture, polarized micro-environment, T cells 182

Interleukins
interleukin-2, concentration, seminal fluid, tumour necrosis factor α 409
interleukin-6, placental protein 14, endometrium, cycle phases, immunoregulation 793

Intra-uterine adhesions
spontaneous abortion, first trimester, curettage, diagnostic hysteroscopy 442

Intra-uterine insemination
Fallopian tube, sperm perfusion, antisperm antibodies, pregnancy rates 1414
Fallopian tube, sperm perfusion, unexplained infertility, efficacy 890
ovarian stimulation, IVF–ET, pregnancy rates 528
unexplained infertility, ovulation induction, natural intercourse 563

Intracytoplasmic sperm injection
fertilization rates, implantation rates 1061
oocytes, calcium-induced calcium release 988
subzonal insemination, IVF–ET, pregnancy rates 1055

Isthmic plug
proximal tubal occlusion, falloposcopy, immunohistochemistry 1429

IVF
acrosome reaction, pentoxifylline, calcium ionophore, ARIC test 2102
alloplastic spermatocele, spermatozoa, pregnancy 422
alternative strategies, cost-effectiveness 1788
antisperm antibodies, mixed antiglobulin reaction, tray agglutination test 84
assisted hatching, zona rubbing, frozen–thawed human blastocyst 127
blastocysts, developmental potential, HCG secretion 2119
calcium, oocyte maturation, egg activation, meiosis 1274
capacitation, cholesterol, mannose lectins, acrosome reaction 2001
capacitation, cholesterol, mannose lectins, acrosome reaction 2141
capacitation, cholesterol, mannose lectins, acrosome reaction 2155
chromosomal aberrations, chromosomal analysis 572
co-culture, embryo development 1155, 1160
counselling, psychological evaluation, stress 1332
dizygotic triplet pregnancy 2240
embryos, embryo culture, morphological appearance, infertility 266
extrinsic coagulation system, ovarian stimulation, tumour necrosis factor 1349
failed IVF, subzonal insemination, aged oocytes 1245
follicular fluid, antibacterial activity, culture media 508
granulosa–luteal cells, luteal phase, HCG, progesterone 2047
granulosa cells, growth hormone, insulin-like growth factor-I, HMG 1588
hemizona assay, fertilization prediction, male-factor infertility 1240
human gametes, viability, patient selection 1781
improved fecundity, GnRH agonist, inadvertent administration, luteal phase 1148
intracytoplasmic sperm injection, oocytes, calcium- induced calcium release 988
IVF failure, sperm defect, partial zona dissection, swim across 722
IVF prediction, acrosome reaction, triple-stain 2128
luteal phase, oestradiol valerate, HCG 40
miscarriage rates, polycystic ovaries, pituitary desensitization, buserelin 959
moderate male infertility, subzonal insemination, partial zona dissection, mini-Percoll 587
multiple pregnancy, delayed interval delivery 649
oocyte retrieval, follicular aspiration, needle calibre, outcome 1098
oocytes, immaturity, chromosome abnormalities 229
oocytes, single pronucleus, human 221
ovarian hyperstimulation syndrome, follicular aspiration 1184
ovarian hyperstimulation syndrome, von Willebrand factor, endothelial permeability, ristocetin co-factor 2039
ovarian stimulation, LHRH agonist, treatment protocol 238
ovarian stimulation, low response, HMG 369
ovarian stimulation, pituitary down-regulation, intranasal buserelin, subcutaneous goserelin 2052
ovarian strumosis, ovarian stimulation 2075
paraplegia, ejaculation failure, vas deferens, pregnancy 89
polyspermic zygotes, DNA synthesis, cell cycle, human triploids 1892
prediction of fertilization, sperm survival test, receiver–operating characteristics 916

pregnancy rate, progesterone, serum concentration, GnRH agonist 1376
pregnancy rates, endometrial thickness, hyperechogenicity 1293
preimplantation diagnosis, FISH, aneuploidy, mosaicism 2185
premature luteinization, oocyte donors, pregnancy rates, progesterone 1506
proximal tubal occlusion, transcervical balloon tuboplasty, multicentre trial, pregnancy rates 1264
reinsemination, failed-fertilized oocytes, therapeutic value 503
semen quality, acrosome reaction, GB24 antibody, *Arachis hypogaea* lectin 1685
singleton pregnancies, complications, risk, ovarian stimulation 1297
sperm aspiration, vas deferens, anejaculation, spinal injury 1689
sperm defects, diagnosis 1779
subzonal insemination, intracytoplasmic injection, outcomes 1785
subzonal insemination, repeated injections, fertilization rates, pregnancy rates 467
'take-home baby' rate, multiple gestational sacs, ultrasound, implantation rate 710
testicular sperm, vas deferens, congenital absence 1339
ultrasonography, crown–rump length, transvaginal measurements 1933
zona pellucida, photo-ablation, spermatozoa, vasectomized mice 464

IVF–ET
antisperm antibodies, subfertile men, pregnancy rates 1079
cumulative embryo score system, embryo selection, quality control 1719
embryo transfer, glyceryl trinitrate, pregnancy rates 1426
embryos, cryopreservation, cohort study, efficiency 247
endometrial lining, ultrasonography, ovarian stimulation 347
epididymal spermatozoa, vasoepididymostomy, pregnancy rates 1692
first trimester, PP14, pituitary desensitization, ovarian stimulation 323
heterotopic pregnancy, frequency 116
heterotopic pregnancy, interstitial pregnancy, treatment 631
immunosuppression, methylprednisone, corticosteroids, pregnancy rates 393
intracytoplasmic sperm injection, fertilization rates, implantation rates 1061
intracytoplasmic sperm injection, subzonal insemination, pregnancy rates 1055
menopausal women, oocyte donation, pregnancy rates, endometrial thickness 1487
multiple pregnancies, embryo quality, elective transfer 1650
number of embryos, miscarriage rates, multiple pregnancies, perinatal mortality 1324
oestradiol, HCG, embryonic development, pregnancy rates 752
oocytes, fractured zona pellucida, GnRH agonist 609
ovarian hyperstimulation syndrome, polycystic ovaries, ultrasound diagnosis, HMG 233
ovarian steroids, placental proteins, pregnancy, first trimester 316
pregnancy prediction, endometrial thickness, echo pattern 1339
pregnancy rates, ovarian stimulation, intra-uterine insemination 528
subzonal insemination, extreme male factor infertility, patient selection, pregnancy rates 908

IVF surrogacy
oocyte donation, oestradiol valerate, endometrium, preparation 1145

Labour
preterm labour, placental proteins, birth weight 1942

Lactational amenorrhoea
pulsatile LH/FSH, prolactin, dopamine, opiates 532

Laminin
trophoblast, implantation, integrin, fibronectin 475

Laparoscopy
ectopic pregnancy, salpingectomy, salpingostomy, surgical experience 2227
ectopic pregnancy diagnosis, HCG, transvaginal sonography, 1301 1307
microlaparoscopy, pelvic organ visualization 1701
polycystic ovarian disease, ovarian resection, hypophyseal–ovarian axis 359

Laser treatment techniques
laparoscopy, endometriosis, ectopic pregnancies, polycystic ovarian syndrome 133

Legislation
gamete donation, donor anonymity, role of clinicians 1518

Leukocytes
follicular development, ovulation, corpus luteum, cytokines 1762
leukocyte immunotherapy, recurrent spontaneous abortion, HLA antigens, pregnancy rates 1645
leukocyte recovery, uterine flushing, sperm recovery, leukocytic reaction 925

Leuprolide acetate
GnRHa, HCG, HMG, oocyte release 568
pituitary desensitization, premature luteinization 695

Levonorgestrel
bleeding problems, endometrium, steroid receptors, immunohistochemistry 1632
endometrium, microvascular density, bleeding pattern 1396
Yuzpe regimen, post-coital contraception, side-effects 389

LH
androgens, polycystic ovarian disease, insulin, C-peptide 1179
FSH:LH ratio, follicular growth, ovarian stimulation, Org 31338 1387
gonadotrophin secretion, exercise, amenorrhoea, GnRH 1747
granulosa–lutein cells, steroidogenesis, insulin-like growth factor I, FSH 1813
LH concentrations, peri-implantation period, follicular phase, endometrial development 1021
LH secretion, follicular development, polycystic ovarian disease, GnRH 2056
LH suppression, steroid feedback, melatonin, men 1819
LH surge, follicular fluid, endothelial cells, mitogenesis 1564
LH surge, ovulation induction, GnRH agonist, ovarian hyperstimulation syndrome 1628
LH surge, premature luteinization, pituitary desensitization, leuprolide acetate 695
prolactin, pulsatile secretion, nalmefene, men 1598

LHRH
LHRH pulsatility, puberty, 'biological clock', CNS activity 791

LHRH agonist
pituitary down-regulation, ovarian cysts, GnRH agonist 1622
treatment protocol, ovarian stimulation, tubal infertility, IVF 238

Lipid storage disease
preimplantation diagnosis, fluorescent substrate, human, mouse 302
Loa loa
filariasis, follicular fluid, IVF, oocyte retrieval 2096
Lupus anticoagulant
primary antiphospholipid syndrome, pregnancy loss, aspirin, low-dose treatment 2234
Luteal function
early embryonic arrest, ectopic pregnancy 645
Luteal phase
IVF, granulosa–luteal cells, HCG, progesterone 2047
luteal phase support, HCG, GnRH agonist, ultrashort protocol 1372
polycystic ovarian syndrome, ovulation induction, exogenous gonadotrophins, GnRH agonist 2027
uterine flushing, placental protein 14, endometrial morphology 1923
Luteolysis
tissue type plasminogen activator, rhesus monkey 1640
Lymphocytes
decidua, first trimester, cell adhesion molecules, integrins 1203
lymphocyte subsets, ovarian failure, oestrogen replacement therapy, immunoglobulins 714

D-Mannose
spermatozoa, zona penetration, suppression, acrosome reaction 1729
Mannose lectins
zona pellucida, spermatozoa, capacitation, cholesterol 2001, 2141, 2155
Medroxyprogesterone acetate
Hodgkin's disease, chemotherapy, primordial follicles, ultrastructure 2080
Melatonin
hypothalamo-pituitary axis, steroid feedback, LH suppression, men 1819
Menopause
Fallopian tube, placental protein 14, ovarian cycle, protein synthesis 678
oocyte donation, quadruplets 2243
Menotrophins
ovarian hyperstimulation syndrome, GnRH agonist, assisted reproduction 2009
Mepivacaine
prilocane, anaesthetic procedures, ultrasound-guided oocyte retrieval 1093
Metformin
insulin, steroidogenesis, ovary, gonadotrophins, rat 1194
Methotrexate
tubal pregnancy, ectopic pregnancy, treatment 660
Micro-assisted fertilization
human gametes, viability, patient selection, IVF 1781
Microlaparoscopy
pelvic organ visualization 1701
Mifepristone see RU 486
Mitochondria
mitochondrial disease, energy substrates, sperm motility/ultrastructure, male infertility 1863
mitochondrial distribution, ultrarapid freezing, oocytes, zygotes 2115

Mixed antiglobulin reaction
antisperm antibodies, tray agglutination test, IVF 84

Nafarelin
pituitary desensitization, endometriosis, pre-menstrual syndrome 1593
Nalmefene
LH, prolactin, pulsatile secretion, men 1598
Naloxone
LH, prolactin, pulsatile secretion, men 1598
Naltrexone
hypothalamic ovarian failure, ovulation induction, GnRH release 350
Natural killer cells
decidua, perforin, granzyme A, TIA-1 2061

Obesity
polycystic ovarian disease, insulin-like growth factor I, insulin, growth hormone 379
Oestradiol
cigarette smoking, androgens, gonadotrophins, progesterone 1187
concentrations, follicular fluid, assisted reproductive techniques 1612
ectopic pregnancy, corpus luteum, trophoblast 1491
HCG, IVF–ET, embryonic development, pregnancy rates 752
seminal plasma, infertility 74
Oestradiol valerate
endometrium, preparation, oocyte donation, IVF surrogacy 1145
luteal phase, HCG, IVF, ZIFT 40
Oestrogens
oestrogen receptors, endometrium, immunohistochemistry, endometriosis 1915
oestrogen receptors, immunolocalization, decidua, prolactin production 1129
oestrogen replacement therapy, ovarian failure, lymphocyte subsets, immunoglobulins 714
RU 486, decidua, abortion, progesterone receptor 1288
Oocytes
abnormal 1PN oocytes, morphology, in-situ hybridization, Y chromosome 402
aged human oocytes, intracytoplasmic single sperm injection 2180
calcium oscillations, fertilization, aequorin 2174
calcium-induced calcium release, intracytoplasmic sperm injection 988
chromosome anomalies, trisomy, non-disjunction, age 1047
co-culture, granulosa cells, fertilization rate 1455
cryopreservation, 1,2-propanediol, cortical granules, meiotic spindle, human/mouse 1101
cryopreservation, reproducible techniques 1524
cryopreservation, zona hardening, fetuin, mouse 1898
failed-fertilized oocytes, research potential, therapeutic value, IVF 503
fractured zona pellucida, IVF–ET, GnRH agonist 609
frozen–thawed oocytes, cytoskeleton, zona sensitivity, mouse 612
GIFT, outcome, number of oocytes, multiple pregnancies 1231
growth, maturation, GnRH agonists, ovarian stimulation 511
human oocytes, chromosomes, R-banding, aneuploidy diagnosis 604

immaturity, chromosome abnormalities, IVF 229
IVF, prediction of fertilization, sperm survival test, receiver–operating characteristics 916
IVF, single pronucleus, human 221
maturation, epidermal growth factor, blastocysts 691
oocyte–cumulus complex, cyclic AMP, meiosis 737
oocyte–cumulus complex, maturation, meiosis, cyclic AMP 737
oocyte donation, age of recipient, implantation, deliveries 488
oocyte donation, anonymity, psychological evaluation 874
oocyte donation, donor anonymity, role of clinicians, legislation 1518
oocyte donation, first trimester, placental protein 14, progesterone 485
oocyte donation, IVF, parental attitudes, questionnaire, psychological evaluation 1963
oocyte donation, menopause, quadruplets 2243
oocyte donation, menopausal women, IVF–ET, endometrial thickness 1487
oocyte donation, oestradiol valerate, endometrium, preparation 1145
oocyte donation, older women, ethics 1343
oocyte donation, pregnancy rates, agonadal women, post-amenorrhoeic women 498
oocyte donation, recipients' age, pregnancy rates 2088
oocyte donation, repeat trials, success rates 1851
oocyte donors, premature luteinization, IVF, pregnancy rates 1506
oocyte maturation, egg activation, calcium 1274
oocyte maturity, acrosome reaction, follicular fluid 1448
oocyte retrieval, follicular aspiration, needle calibre 1098
oocyte retrieval failure, HCG, progesterone 1854
ooplasmic anomalies, fertilization failure, sperm–zona binding 453
parthenogenesis, Ca^{2+} ionophore, puromycin, cytostatic factor 740
polypeptide profiles, fertilization, preimplantation embryos 1901
sperm–oocyte interaction, fertilization, cytoskeleton, mammals 91
spermatozoa, intrafollicular gamete transfer, ultrasound- guided follicular puncture 771
ultrarapid freezing, mitochondrial distribution, rhodamine 123 2115
ultrasound-guided oocyte retrieval, anaesthetic procedures, mepivacaine, prilocane 1093
unfertilized oocytes, subzonal insemination, paternal chromatin, pronuclear formation 2167

Ouabain
temporal effects, zygote development, 2-cell block, mouse 1469

Ovary
cancer, ovarian hyperstimulation syndrome 2247
granulosa–luteal cells, progesterone production, epidermal growth factor 1005
granulosa cells, in-vitro culture, steroidogenesis, FSH 1380
ovarian abscess, ultrasound-guided oocyte retrieval, endometrioma aspiration 1282
ovarian cancer risk, follicular stimulation, 'fertility drug' use 990
ovarian cyst aspiration, transvaginal puncture, squamous cells, diagnosis 1272
ovarian cysts, pituitary down-regulation, LHRH agonist 1622
ovarian failure, endometrial maturation, steroid receptors, replacement therapy 1828
ovarian failure, oestrogen replacement therapy, lymphocyte subsets, immunoglobulins 714
ovarian function, dual analyte assay, oestrone–pregnanediol, ovulation marker 208
ovarian function, ecology, energetics, nutritional status 2248
ovarian function, female infertility, pelvic adhesions, FSH 1654
ovarian function, leukocytes, cytokines 1762
ovarian function, seasonality, energy expenditure, weight loss 684
ovarian hyperstimulation syndrome, clinical and biological features, risk prediction, multicentre study 1353
ovarian hyperstimulation syndrome, follicular aspiration, IVF 1184
ovarian hyperstimulation syndrome, GnRH agonist, LH surge 1628
ovarian hyperstimulation syndrome, GnRH agonist, menotrophins 2009
ovarian hyperstimulation syndrome, high-risk subjects, albumin, intravenous administration 1015
ovarian hyperstimulation syndrome, ovulation induction, prevention, treatment 653
ovarian hyperstimulation syndrome, polycystic ovarian disease, selective embryo reduction, heterotopic pregnancy 1329
ovarian hyperstimulation syndrome, polycystic ovaries, ultrasound diagnosis, IVF–ET 233
ovarian hyperstimulation syndrome, prevention, treatment, GnRHa 2245
ovarian hyperstimulation syndrome, von Willebrand factor, endothelial permeability, ristocetin co-factor 2039
ovarian steroids, extra-corporeal perfusion, uterus, electromechanical activities 1558
ovarian stimulation, embryo quality, endometrial development, implantation 1938
ovarian stimulation, extrinsic coagulation system, tumour necrosis factor 1349
ovarian stimulation, follicles, oocytes, GnRH agonists 511
ovarian stimulation, FSH/LH dose, pre-embryo recovery, mouse 385
ovarian stimulation, FSH:LH ratio, follicular growth, Org 31338 1387
ovarian stimulation, GnRH agonist, short/long protocol, follicular volume 807
ovarian stimulation, intra-uterine insemination, IVF–ET, pregnancy rates 528
ovarian stimulation, IVF, singleton pregnancies, complications 1297
ovarian stimulation, low response, HMG, IVF 369
ovarian stimulation, recombinant human FSH, pregnancy, birth 863
ovarian stimulation, treatment protocol, LHRH agonist, tubal infertility 238
ovarian strumosis, ovarian stimulation, IVF 2075
polycystic ovarian disease, ovarian resection, laparoscopy, hypophyseal–ovarian axis 359
polycystic ovarian syndrome, HMG, oestradiol 30
poor ovarian responders, growth hormone, HMG, co- treatment 834
poor ovarian responders, growth hormone, IGF-1, IGFBP-3 850
primordial follicles, ultrastructure, Hodgkin's disease, chemotherapy, medroxyprogesterone acetate 2080

steroidogenesis, gonadotrophins, insulin, metformin, rat 1194
steroidogenesis, sandostatin, rat 364
tenascin, immunohistochemistry, corpus luteum, luteolysis 2015
tubo-ovarian transplant, ovarian function, cyclosporine, rabbit 929
uterine/ovarian factors, age, pregnancy, miscarriage 1512

Ovulation
anovulation, polycystic ovarian syndrome, clomiphene resistance, treatment 1367
Fallopian tube, spermatozoa, number, distribution, storage 2019
leukocytes, follicular development, corpus luteum 1762
ovulation induction, biochemical pregnancy, endometrial thickness 327
ovulation induction, buserelin, hyperandrogenism, oral contraceptive 2033
ovulation induction, clomiphene citrate, HMG, multiple birth rate 56
ovulation induction, GnRH agonist, ovarian hyperstimulation syndrome 1628
ovulation induction, HCG, GnRH agonist, follicular fluid 840
ovulation induction, in-vivo perfusion, relaxin, rat 1011
ovulation induction, infertile women, growth hormone- releasing factor, HMG 525
ovulation induction, luteal phase, polycystic ovarian syndrome, exogenous gonadotrophins 2027
ovulation induction, naltrexone, GnRH release 350
ovulation induction, ovarian hyperstimulation syndrome, prevention, treatment 653
ovulation induction, polycystic ovarian disease, FSH, HMG 813
ovulation marker, dual analyte assay, oestrone–pregnanediol, LH peak 208

Papanicolau test
cervical smear, post-coital test, cervical leukocytosis, bacterial infections 244

PAPP-A
anembryonic pregnancy, pregnancy 112

Paramagnetic beads
MH61-beads, spermatozoa, sperm selection, hamster 1074

Partial zona dissection—see Zona pellucida

PECAM
endometrium, endothelial cells, humans 175

Pelvic adhesions
endometriosis, subfertility, patient history, relative risk 53
FSH, ovarian function, female infertility 1654

Pelvic infection
ovarian cyst aspiration, transvaginal puncture, squamous cells 1272

Pentoxifylline
acrosome reaction, IVF, calcium ionophore, ARIC test 2102
implantation, post-implantation development, *in vitro*, mouse 1948
preimplantation embryos, development, mouse 1475
sperm motility, fertilization, embryo development, mouse/human 945
spermatozoa, hyperactivation, digital image analysis, male factor infertility 727
spermatozoa, motility analysis, longevity, variability 1696
uses, mechanism of action, assisted fertilization, cyclic AMP 1787

C-peptide
insulin, polycystic ovarian disease, LH, androgens 1179

Percoll
mini-Percoll, swim-up, moderate male infertility 587
Percoll centrifugation, sperm preparation, CASA, poor- quality semen 1856
Percoll gradient centrifugation, multiple tube swim-up, cross-over study 1438
semen filtration, sperm selection, Sephadex 732

Perforin
natural killer cells, decidua, placentation 2061

Phospholipids
spermatozoa, flagella, motility disturbance, epididymal maturation 1070

Pituitary desensitization
nafarelin, endometriosis, pre-menstrual syndrome 1593

Pituitary down-regulation
LHRH agonist, ovarian cysts, GnRH agonist 1622
ovarian stimulation, intranasal buserelin, subcutaneous goserelin, IVF 2052

Placenta
diseases, prenatal diagnosis, treatments, embryos 1966
first trimester, human parathyroid hormone, HCG, epidermal growth factor 107
first trimester, vitamin C, quinone reductase, xenobiotics 102
placental explants, HCG, insulin, early pregnancy 858
placentation, decidua, natural killer cells, perforin 2061

Placental proteins
first trimester, preterm labour, birth weight, placental development 1942
placental protein 14, Fallopian tube, ovarian cycle, protein synthesis, menopause 678
placental protein 14, first trimester, natural conception, IVF–ET 323
placental protein 14, interleukin-6, endometrium, cycle phases, immunoregulation 793
placental protein 14, oocyte donation, first trimester, progesterone 485
placental protein 14, uterine flushing, endometrial morphology, peri-implantation period, luteal phase 1923

Plasminogen activators
tissue type plasminogen activator, corpus luteum, luteolysis, rhesus monkey 1640

Platelet activating factor
acrosome reaction, sperm penetration assay, calcium, human/hamster 1443

Polycystic ovarian disease
anovulation, clomiphene resistance, treatment 1367
FSH, low-dose treatment, ovulation induction, GnRH agonist 699
GnRH antagonist, GnRH, LH secretion, follicular development 2056
HMG, oestradiol 30
insulin, LH, androgens, C-peptide 1179
laser treatment techniques, laparoscopy 133
luteal phase, ovulation induction, exogenous gonadotrophins, GnRH agonist 2027
obesity, insulin-like growth factor I, insulin, growth hormone 379
ovarian hyperstimulation syndrome, selective embryo reduction, heterotopic pregnancy 1329
ovarian resection, laparoscopy, hypophyseal–ovarian axis 359
ovulation induction, FSH, HMG, pharmacokinetics 813

polycystic ovaries, IVF, miscarriage rates, pituitary desensitization, buserelin 959
polycystic ovaries, morphology, clinical symptoms, response to clomiphene, transvaginal ultrasound 844
recurrent early miscarriage, sex steroids, LH, hypersecretion 829
Polymerase chain reaction
endometrium, growth factor 11
β-globin gene, dinucleotide repeat sequence, blastocysts, trophectoderm 2197
preimplantation diagnosis, sex selection, ethics 1545
primer extension preamplification, preimplantation diagnosis, blastomeres 2206
retroactive testing, semen donors, cystic fibrosis, HIV 1435
Polypeptides
polypeptide profiles, oocytes, fertilization, preimplantation embryos 1901
Population growth
contraceptive development, public/private finance 981
environmental impact, contraception 1346
Pre-menstrual syndrome
pituitary desensitization, nafarelin, endometriosis, 1593
Pregnancy
age, miscarriage, uterine/ovarian factors 1512
alloplastic spermatocele, IVF 422
anembryonic pregnancy, glucose phosphate isomerase, gene defect, mouse 1316
anembryonic pregnancy, ovarian hormones, placental hormones 112
biochemical pregnancy, endometrial thickness, ovulation induction, clinical abortion 327
early pregnancy, chorionic villi, decidua, prostaglandin dehydrogenase 705
early pregnancy, placental explants, HCG, insulin 858
ectopic pregnancies, laser treatment techniques, laparoscopy 133
ectopic pregnancy, corpus luteum, hormone production, trophoblast 1491
ectopic pregnancy, salpingectomy, salpingostomy, laparoscopy, surgical experience 2227
ectopic pregnancy diagnosis, laparoscopy, HCG, transvaginal sonography, 1301 1307
ectopic pregnancy diagnosis, progesterone, receiver–operator characteristic curves, gestational age 775
ectopic pregnancy risk, assisted procreation, ovarian stimulation, tubal pathology 1284
ejaculation failure, paraplegia, vas deferens, IVF 89
first trimester, decidua, trophoblast, materno–fetal interaction 965
first trimester, embryonic cavities, protein/steroid levels, protein pathways 782
first trimester, ovarian steroids, placental proteins, IVF–ET 316
first trimester, placental protein 14, progesterone, oocyte donation 485
heterotopic pregnancy, contralateral tube, GIFT 2231
heterotopic pregnancy, corpus luteum–embryo interactions 1496
heterotopic pregnancy, frequency, IVF–ET 116
heterotopic pregnancy, interstitial pregnancy, IVF–ET, treatment 631
heterotopic pregnancy, ovarian hyperstimulation syndrome 1329
labour, delivery, RU 486, *Macaca fascicularis* 759
RU 486, adrenergic receptors, antiprogestogen, cervical contractility 119
multifetal pregnancies, selective termination, colour ultrasonography 642
multiple pregnancies, GIFT, outcome, number of oocytes 1231
multiple pregnancies, IVF–ET, embryo quality, elective transfer 1650
multiple pregnancy, delayed interval delivery, IVF 649
non-developing pregnancy, embryo expulsion, first trimester, RU 486 492
oocyte donation, age of recipient, implantation, menopause 488
ovarian stimulation, recombinant human FSH, birth 863
ovulation induction, growth hormone-releasing factor, HMG 525
post-menopausal, oocyte donation, ethics 1344
post-menopausal women, ethics 1542
pregnancy prediction, ultrasonography, endometrium, IVF 1307
pregnancy rates, ovarian stimulation, intra-uterine insemination, IVF–ET 528
preimplantation, GnRH agonist, fetal outcome, luteolysis 496
prolactin, molecular heterogeneity, glycosylation, serum 1617
singleton pregnancies, IVF, complications, risk 1297
triplet pregnancy, unicornuate uterus 338
tubal pregnancy, ectopic pregnancy, treatment, methotrexate 660
tubal pregnancy, falloposcopy, transcervical catheterization, tubal embryo transfer 445
tubal pregnancy, prostaglandin $F_{2\alpha}$ treatment, corpus luteum, endometrium 1928
Preimplantation
endometrium, morphology, von Willebrand factor, rhesus monkey 1579
GnRH agonist, luteolysis, pregnancy, fetal outcome 496
human preimplantation embryos, cell division, calmodulin 272
pregnancy rates, IVF–ET, immunosuppression, methylprednisone 393
preimplantation diagnosis, FISH, aneuploidy 296
preimplantation diagnosis, lipid storage disease, human, mouse 302
preimplantation embryos, co-culture, Vero cells, development 1525
preimplantation embryos, development, pentoxifylline, mouse 1475
preimplantation embryos, growth, differentiation, epidermal growth factor, mouse 1459
preimplantation embryos, polypeptide profiles 1901
zygote development, ouabain, temporal effects, mouse 1469
Preimplantation diagnosis
aneuploidy, mosaicism, FISH, IVF 2185
chorionic villus sampling, women's preferences, questionnaire, genetic disease 2192
embryo biopsy, sex determination, testis-specific gene, mouse 621
embryos, chromosomes, sexing, mouse 470
embryos, FISH, mixoploidy, polyploidy 895
FISH, multinucleated blastomeres, sex chromosomes 1120
β-globin gene, dinucleotide repeat sequence, polymerase chain reaction, blastocysts, trophectoderm 2197
polymerase chain reaction, primer extension preamplification, blastomeres 2206
sex selection, polymerase chain reaction, ethics 1545
single-cell embryo biopsy, blood chemistry, safety, mouse 1906

Prenatal diagnosis
embryos, placenta, diseases, treatments 1966
genetic disorders, prevention of birth 1983
Prilocane
mepivacaine, anaesthetic procedures, ultrasound-guided oocyte retrieval 1093
Primary antiphospholipid syndrome
pregnancy loss, lupus anticoagulant, aspirin, low-dose treatment 2234
Primer extension preamplification
polymerase chain reaction, preimplantation diagnosis, blastomeres 2206
Progesterone
cigarette smoking, androgens, gonadotrophins, oestradiol 1187
concentrations, follicular fluid, assisted reproductive techniques 1612
ectopic pregnancy, corpus luteum, trophoblast 1491
follicular fluid, acrosome reaction, fertilization 1448
granulosa–luteal cells, luteal phase, IVF, HCG 2047
premature luteinization, oocyte donors, IVF 1506
progesterone receptors, endometrium, immunohistochemistry, endometriosis 1915
progesterone receptors, immunolocalization, decidua, prolactin production 1129
progesterone receptors, RU 486, decidua, abortion, oestrogen receptor 1288
receiver–operator characteristic curves, gestational age, ectopic pregnancy diagnosis 775
serum concentration, pre-ovulation, GnRH agonist, pregnancy rate 1376
Prolactin
lactational amenorrhoea, pulsatile LH/FSH, dopamine, opiates 532
LH, pulsatile secretion, nalmefene, men 1598
molecular heterogeneity, glycosylation, serum, pregnancy 1617
prolactin production, decidua, progesterone receptor 1129
1,2-propanediol
cryopreservation, embryos, embryo biopsy, development 1481
cryopreservation, oocytes, cortical granules, meiotic spindle, human/mouse 1101
Prostaglandins
prostaglandin dehydrogenase, early pregnancy, chorionic villi, decidua, RU 486 705
prostaglandin E_1 analogue, misoprostol, gemeprost, abortifacient effects 1744
prostaglandin $F_{2\alpha}$ treatment, tubal pregnancy, corpus luteum, endometrium, trophoblast 1928
prostaglandin H synthase inhibitors, autonomic nervous system, cervical mucus, fertility 1168
RU 486, medical abortion 1502
c-*kit* protein
immunohistochemistry, adult tissues, fetal tissues 1955
Psychological evaluation
fertility, infertility, predictability, questionnaire 1039
IVF, counselling, stress 1332
IVF, oocyte donation, parental attitudes, questionnaire 1963
oocyte donation, anonymity 874
Puberty
'biological clock', CNS activity, LHRH pulsatility 791

Quinone reductase
placental protection, first trimester, vitamin C, xenobiotics 102

Radionuclide migration
^{99m}Tc, tubal infertility, endometriosis 1910
Radiotherapy
Hodgkin's disease, spermatozoa, chromosomes, abnormalities 903
Relaxin
ovulation induction, in-vivo perfusion, rat 1011
Rhesus monkey
endometrium, preimplantation, morphology, von Willebrand factor 1579
luteolysis, tissue type plasminogen activator 1640
morulae, blastocyts, chorionic gonadotrophin secretion 279
RU 486, anti-nidatory effect, early post-ovulatory 552
Rhodamine 123
cryopreservation, mitochondrial distribution, oocytes, zygotes 2115
Ristocetin co-factor
von Willebrand factor, ovarian hyperstimulation syndrome, endothelial permeability, IVF 2039
RU 486
anti-nidatory effect, early post-ovulatory, rhesus monkey 552
antiprogestin, contraception, endometrial function, uterine contractility 870
cervical ripening, first trimester, abortion, electron microscopy 1136
dose, gestation, medical abortion, prostaglandins 1502
embryo expulsion, non-developing pregnancy, first trimester 492
labour, delivery, *Macaca fascicularis* 759
low-dose antiprogestin, endometrial maturation, follicular maturation 201
misoprostol, gemeprost, abortifacient effects 1744
pregnancy, adrenergic receptors, antiprogestogen, cervical contractility 119
progesterone receptor, oestrogen receptor, decidua, abortion 1288
prostaglandin dehydrogenase, early pregnancy, chorionic villi, decidua 705
tamoxifen, endometrium, mid-luteal phase, PP14 193
trophoblast, progesterone receptor, steroid concentrations 953

Salpingography
selective salpingography, proximal tubal obstruction, transcervical tubal catheterization 1711
Sandostatin
steroidogenesis, granulosa cells, theca–interstitial cells, rat 364
Scanning electron microscopy
pelvic endometriosis, metaplasia, immunohistochemistry 2218
Schwangerschaft protein 1
anembryonic pregnancy, pregnancy 112
Seasonality
weight loss, ovarian function, fertility 684
Semen
donor insemination, semen donor screening guidelines 1521
poor-quality semen, Percoll centrifugation, CASA 1856
semen characteristics, ejaculatory frequency, spermatozoa, intrauterine insemination 71
semen donors, cystic fibrosis, HIV, polymerase chain reaction 1435
semen filtration, sperm selection, Percoll, Sephadex 732
semen quality, vibratory stimulation, masturbation 1067

seminal fluid, tumour necrosis factor α, interleukin-2, concentration 409
seminal plasma, oestradiol, infertility 74
seminal plasma, p55 TNF receptors, purification, TNF antagonist 1837
Sephadex
semen filtration, sperm selection, Percoll 732
Sex determination
preimplantation diagnosis, testis-specific gene, mouse 621
sex-reversed females, testis-determining factor, PCR, SSCP 224
Sex selection
FISH, sperm separation, comparison of methods 1740
male sex selection, swim-up preparation, ovulation- inducing drugs 211
population structure, ethics 1777
preimplantation diagnosis, polymerase chain reaction, ethics 1545
sperm separation, population X/Y ratios, ethics 1541
sperm separation, X/Y chromosomes, FISH, DNA content 1733
Sexual dysfunction
infertility, psychosocial impact, psychosomatic symptoms, structured questionnaire 396
Sexually transmitted diseases
cholic acid, anti-HIV activity, contraceptive vaginal sponge 866
Signal transduction pathways
secondary messengers, cell function, cyclic AMP, GTP 1556
Spermatozoa
abnormal morphology, acrosome reaction, follicular fluid 412
acrosin activity, sperm characteristics, fertilization, IVF 253
acrosome reaction, capacitation inhibitor, fetal cord serum, follicular fluid 575
acrosome reaction, clomiphene citrate, oestradiol 922
acrosome reaction, detection by probes, *Arachis hypogaea* lectin, *Pisum sativum* lectin, monoclonal antibody CRB9 1663
acrosome reaction, fertilizing ability, in-vitro test, iodine-labelled lectins 258
acrosome reaction, IVF prediction, triple-stain 2128
acrosome reaction, mechanism, control, calcium 2006
acrosome reaction, osmo-sensitivity, ionophore A23187, dbcAMP 1235
acrosome reaction, pentoxifylline, IVF 2102
acrosome reaction, zona penetration, D-mannose, D-fructose 1729
acrosome status, flow cytometry, human spermatozoa, salmon testis DNA 1879
acrosome-reacted, sperm selection, MH61-beads, hamster 1074
alloplastic spermatocele, IVF, pregnancy 422
antisperm antibodies, ELISA, serum samples 1405
antisperm antibodies, Fallopian tube, sperm perfusion, pregnancy rates 1414
antisperm antibodies, mixed antiglobulin reaction, tray agglutination test, IVF 84
antisperm antibodies, sperm–mucus interaction, mixed antiglobulin reaction 1025
antisperm antibodies, spermogram, male factor infertility, diagnosis 1152
autoantibodies, subfertile men, IVF–ET, pregnancy rates 1079
capacitation, cholesterol, zona pellucida, mannose lectins, acrosome reaction 2001
capacitation, cholesterol, zona pellucida, mannose lectins, acrosome reaction 2141
capacitation, cholesterol, zona pellucida, mannose lectins, acrosome reaction 2155
centrifugation, sublethal damage, motility loss, dextran swim-up 1087
chlamydial infection, ultrastructure, reticulate body, infertility 416
chromosome analysis, sperm storage, structural abnormalities, zona-free hamster eggs 581
chromosomes, abnormalities, radiotherapy, Hodgkin's disease 903
cryopreservation, hypo-osmotic swelling, motility 717
dyspermia, motility analysis, male infertility, glutathione therapy 1657
epididymal sperm, cystic fibrosis mutations, fertilization rate, vas deferens 1259
epididymal spermatozoa, IVF–ET, vasoepididymostomy, pregnancy rates 1692
fertilization, oocytes, calcium oscillations, aequorin 2174
fertilization rates, TEST–yolk buffer, glass wool filtration, hamster oocytes 425
flagella, motility disturbance, epididymal maturation, phospholipids 1070
flagellar movement, relative force, cumulus oophorus, laser optical trap 1083
freezing–thawing methods, motility, morphology 1678
hyperactivation, digital image analysis, pentoxifylline, male factor infertility 727
intracytoplasmic injection, subzonal insemination, outcomes 1785
intracytoplasmic single sperm injection, aged human oocytes 2180
IVF, sperm survival test, receiver–operating characteristics, prediction of fertilization 916
male sex selection, swim-up preparation, Percoll, ovulation-inducing drugs 211
MESA/IVF, cystic fibrosis 215
mitochondrial disease, sperm motility/ultrastructure, energy substrates, male infertility 1863
number, distribution, storage, Fallopian tube, ovulation 2019
oligozoospermia, accessory gland secretions, multiple ejaculations, abstinence 1251
oocytes, intrafollicular gamete transfer, ultrasound- guided follicular puncture 771
pentoxifylline, motility analysis, longevity, variability 1696
semen analysis, fertility potential, male infertility 65
semen characteristics, ejaculatory frequency 71
sexing, cryopreservation, domestic animals 147
sperm–cervical mucus interaction, anti-oestrogens, ovulatory women 437
sperm–oocyte interaction, fertilization, cytoskeleton, mammals 91
sperm–zona binding, fertilization failure, ooplasmic anomalies 453
sperm aspiration, anejaculation, vas deferens, IVF 1689
sperm characteristics, donor insemination, GIFT, efficacy 2098
sperm defect, IVF failure, partial zona dissection, swim across 722
sperm defects, diagnosis, IVF, intracytoplasmic injection 1779
sperm defects, severe male infertility, pure FSH treatment, multicentre trial 500
sperm defects, severe male infertility, pure FSH treatment, multicentre trial 500

sperm immobilization, human peritoneal fluid, lipidic component 428
sperm migration, cervical mucus, post-partum period 78
sperm motility, fertilization, deoxyadenosine, pentoxifylline 945
sperm penetration assay, acrosome reaction, platelet activating factor, calcium 1443
sperm penetration assay, sperm motility, follicular secretory factors, fertilizing capacity 1670
sperm perfusion, Fallopian tube, non-invasive technique, Foley catheter 1848
sperm preparation, acrosome reaction, subzonal insemination, fertilization rate 1866
sperm preparation, Percoll gradient centrifugation, multiple tube swim-up, cross-over study 1438
sperm recovery, uterine flushing, leukocytic reaction 925
sperm selection, semen filtration, Percoll, Sephadex 732
sperm separation, FISH, sex selection, comparison of methods 1740
sperm separation, sex selection, ethics 1541
sperm viability, post-spermatogonial cells, mutagenic sensitivity, chemotherapy 982
spermatogenic cells, β1 integrins, fibronectin, human testis 1873
spermicide, cholic acid, contraceptive vaginal sponge, anti-HIV activity 866
subzonal insemination, aged oocytes, pentoxifylline 1245
subzonal insemination, IVF–ET, extreme male factor infertility, patient selection 908
subzonal insemination, unfertilized oocytes, paternal chromatin, pronuclear formation 2167
testicular sperm, IVF, vas deferens, congenital absence 1339

Statistics
statistical inference, experimental design, objectivity, sensitivity, randomization 2
statistical methods, fertility table analysis, data collection, systematic errors, drop-out behaviour 886

Steroid receptors
endometrium, mid-luteal phase, tamoxifen, RU 486 193

Steroidogenesis
actin, vinculin, granulosa cells, rat 24
anembryonic pregnancy, HCG 112
follicles, theca cells, HCG, LH 519
granulosa–lutein cells, insulin-like growth factor I, LH, FSH 1813
granulosa cells, in-vitro culture, FSH, LH 1380
human early embryos *in vitro*, oestradiol, progesterone, HCG 277
ovary, gonadotrophins, insulin, metformin, rat 1194
progesterone, granulosa–luteal cells, follicular fluid, gonadotrophins 46
progesterone production, granulosa–luteal cells, epidermal growth factor 1005
sandostatin, granulosa cells, theca–interstitial cells, rat 364

Subzonal insemination
aged oocytes, failed IVF, pentoxifylline 1245
fertilization rate, sperm preparation, acrosome reaction 1866
intracytoplasmic sperm injection, IVF–ET, pregnancy rates 1055
IVF, intracytoplasmic injection, outcomes 1785
IVF–ET, extreme male factor infertility, patient selection, pregnancy rates 908
micro-assisted fertilization, human gametes, patient selection 1781
partial zona dissection, IVF, mini-Percoll, moderate male infertility 587
unfertilized oocytes, paternal chromatin, pronuclear formation 2167

Tamoxifen
RU 486, endometrium, mid-luteal phase, PP14 193

Tenascin
ovary, immunohistochemistry, corpus luteum, luteolysis 2015

Testis-specific gene
sex determination, preimplantation diagnosis, mouse 621

Testosterone
concentrations, follicular fluid, assisted reproductive techniques 1612

TIA-1
RNA-binding protein, natural killer cells, decidua, placentation 2061

Transcervical balloon tuboplasty
multicentre trial, pregnancy rates, proximal tubal occlusion, IVF 1264

Transcervical falloposcopy
tubal embryo transfer, tubal infertility, tubal pregnancy 445

Transcervical tubal catheterization
proximal tubal obstruction, selective salpingography 1711

Transcervical wire tuboplasty
proximal tubal occlusion, colour Doppler mapping system 1715

Tray agglutination test
antisperm antibodies, mixed antiglobulin reaction, IVF 84

Tri-iodothyronine
α-fetoprotein, albumin, liver fetal cells, mouse 1576

Trisomy
non-disjunction, oocytes, age 1047

Trophoblast
tubal pregnancy, prostaglandin $F_{2\alpha}$ treatment, corpus luteum, endometrium 1928

Tubal epithelial proteins
Fallopian tube, mucosa, endometrium, immunoglobulin 1199

Tumour necrosis factor
extrinsic coagulation system, ovarian stimulation, IVF 1349
p55 TNF receptors, seminal plasma, purification, TNF antagonist 1837
TNFα, embryonic resistance *in vitro*, immunological mechanism, human/mouse 1032
tumour necrosis factor α, concentration, seminal fluid, interleukin-2 409

Ultrasonography
Doppler, multifetal pregnancies, selective termination 642
endometrial thickness, hyperechogenicity, pregnancy rates, IVF 1293
fetal cardiac activity, abortion 627
hormone replacement cycles, natural cycles, embryos, cryopreservation 2068
IVF, endometrium, pregnancy prediction 1307
pregnancy prediction, endometrial thickness, echo pattern, IVF–ET 1339
transvaginal, endometrium, thickness/texture, ovulatory cycle 799

transvaginal measurements, crown–rump length, GIFT, IVF 1933
transvaginal sonography, ectopic pregnancy diagnosis, laparoscopy, HCG, 1301 1307
ultrasound, colour Doppler mapping system, proximal tubal occlusion, transcervical wire tuboplasty 1715
ultrasound, embryos, crown–rump length, chorionic sac diameter, HCG 331
ultrasound, multiple gestational sacs, implantation rate, IVF 710
ultrasound, transvaginal ultrasound, polycystic ovaries, morphology, clinical symptoms 844
ultrasound, ultrasound-guided follicular puncture, DIFT 771

Uterus
adenomyoma, conservative surgery, reproductive prognosis 1708
electromechanical activities, ovarian steroids, extra- corporeal perfusion 1558
intra-uterine environment, endometrium, epithelia, ion transport 1570
leiomyomata, insulin-like growth factor, IGF binding protein, IGF receptor gene 1796
unicornuate uterus, triplet pregnancy 338
uterine artery perfusion, pulsatility index, colour Doppler sonography 1126
uterine contractility, endometrial function, RU 486, contraception 870
uterine fibroids (leiomyomata), pre-operative treatment, GnRH analogue 450
uterine flushing, sperm recovery, leukocyte recovery, leukocytic reaction 925
uterine malformations, pre-term deliveries, breech presentations, abortions 122
uterine myomas, GnRHa therapy, vaginal haemorrhage, oestrogen–progestin treatment 540
uterine myomata, Fallopian tube obstruction, GnRHa treatment 780
uterine washing, endometrial function 343
uterine/ovarian factors, age, pregnancy, miscarriage 1512

Vas deferens
congenital absence, epididymal sperm, cystic fibrosis mutations, fertilization rate 1259
congenital absence, infertility, MESA/IVF, cystic fibrosis 215
congenital absence, testicular sperm, IVF 1339
sperm aspiration, spinal injury, anejaculation, IVF 1689

Vasoepididymostomy
azoospermia, epididymal spermatozoa, IVF–ET, pregnancy rates 1692

Vero cells
co-culture, preimplantation embryos, development, hatching 1525

Visual analogue scale
pain assessment, ultrasound-guided oocyte retrieval, anaesthetic procedures 1093

Vitamin C
placenta, first trimester, quinone reductase, xenobiotics 102

Von Willebrand factor
endometrium, menstrual cycle, immunohistochemistry 17
endometrium, preimplantation, morphology, rhesus monkey 1579
ovarian hyperstimulation syndrome, endothelial permeability, ristocetin co-factor, IVF 2039

Yuzpe regimen
levonorgestrel, post-coital contraception, side-effects 389

ZIFT
luteal phase, oestradiol valerate, HCG 40

Zona pellucida
assisted hatching, zona rubbing, frozen–thawed human blastocyst, IVF 127
contact-free photo-ablation, assisted hatching, implantation rates, mouse 939
fractured zona pellucida, IVF–ET, GnRH agonist 609
mannose lectins, spermatozoa, capacitation, cholesterol 2001
mannose lectins, spermatozoa, capacitation, cholesterol 2141
mannose lectins, spermatozoa, capacitation, cholesterol 2155
partial zona dissection, blastocyst hatching, co-culture, mouse 599
partial zona dissection, IVF failure, sperm defect, swim across 722
photo-ablation, IVF, spermatozoa, vasectomized mice 464
subzonal insemination, human gametes, patient selection 1781
zona hardening, cryopreservation, fetal bovine serum, fetuin, mouse 1898
zona penetration, acrosome reaction, D-mannose, D-fructose 1729
zona sensitivity, frozen–thawed oocytes, cytoskeleton, mouse 612

Zygotes
early developmental arrest, pronuclear morphology/asynchrony 744
polyspermic zygotes, DNA synthesis, cell cycle, human triploids, IVF 1892
ultrarapid freezing, mitochondrial distribution, rhodamine 123 2115
